Product Description

Toro 26" Power Max® e26 60V* Two-Stage Snow Blower with (2) 7.5Ah Batteries and Charger

Winter is no match for the Toro 60v Power Max® e26 two-stage snow blower. Tackle years of tough jobs with confidence thanks to steel construction in the housing, frame, deflector and chute. We combine Toro toughness with 3 battery ports, this is the toughest, meanest, most powerful battery-powered snow blower on the market that blows through even deep snow, with a 26-inch-wide clearing width and 20-inch intake height. The innovative Quick Stick control allows you to quickly and easily change steel chute direction and chute deflector with a single, smooth motion. Convenient one-hand operation levers allow single-handed operation, freeing the other hand to change speeds or the chute control without stopping. The self-propelled automatic steering offers smooth, tight turning - no triggers or levers required. Toro's exclusive Anti-Clogging System measures snow intake to reduce clogging and maximize clearing efficiency. Toro uses bolts that are 2x stronger than the competition's shear pins. The blower is also equipped with hardened gears in your auger gearbox - no shear pins to replace.

Ideal for concrete, asphalt and gravel surfaces. Backed by Toro's 3-year limited warranty.

*Battery manufacturer rating = 60V maximum & 54V typical usage. Actual voltage varies with load.

- Clears up to 30 car spaces in up to 10" of snow with two included 7.5Ah batteries
- Heavy-duty, steel construction. Tackle years of tough jobs with confidence thanks to steel construction in the housing, frame, deflector and chute. This machine is built to last.
- Work the cold day or night with LED headlights and hand warmers
- Identical to the Gas Two-Stage in Every Way, Except the Gas - Built with long-lasting, heavy-duty steel, Quick Stick chute control, and more.

- Stay the Course. Minimizes clogging and routes heavy snow away from chute and back into the auger with Toro's patented Anti-Clogging System.
 - Put Snow Anywhere You Want - With Toro's Quick Stick chute control, you can aim for the exact spot where you want to put snow - while keeping it from blowing into your face
 - Hand Warmers - Toasty hands come standard on this snow blowing revolution
 - Use any 60V Max* Flex-Force battery to power any and all of the 75+ tools in the all-season lineup.
 - Download the MyToro app from your mobile device's app store for easy access to product resources, including manuals, how-to's, and more
-
