Product Description

STIHL RMA 348 20" Battery Powered Lawn Mower

Built with a brushless motor featuring ECO mode for maximum energy efficiency, the RMA 348 is ideal for tackling tough jobs in small to mid-sized lawns. The RMA 348 walk-behind mower features a durable 19.7in. steel mowing deck with an 18.1in. cutting width and is compatible with AK System batteries, giving users the long run times and reliable performance they need. The low-noise operation allows for mowing in the early or late parts of the day and in areas with noise regulations. The mower is designed with a 4-in-1 mowing function, allowing users to seamlessly switch from 15.9-gallon grass bag, side discharge chute, and mulch plug for collecting or mulching grass clippings.
